

Geographic Importance: Maps of Vancouver

Goal: To infer the cartographer's sense of importance.

1. List the important features represented on each map.
2. Identify the factors that make these features important (ex. Economic, Political, Environmental, Socio-Cultural)
3. Compare the frequency of natural (physical) features and human (cultural) features.
4. Analyze your results to identify the cartographer's criteria for assigning geographical importance to the city of Vancouver.
